In Trust With The Gospel

Elder Keith Ellis

Four Failures

These four experiments were failures.

1. Airys Failure 1871
2. Michelson - Morley 1887
3. Sagnac 1913
4. Michelson- Gale 1925

Indeed these 4 experiments failed. They are advertised as failures to cosmology students and therefore not studied or considered as valid experiments and glossed over. This is a dishonest approach Mr. Science professor.

They all failed to prove one thing, but succeeded in another.

The goal of all 4 experiments was to prove the earth was moving. All 4 FAILED to prove any movement. What all 4 SUCCEEDED at proving was that the earth is not moving.

Shame on you Mr. Dishonest cosmologist.

The truth can withstand the most intense scrutiny.
